

# PowerApps Consulting Services

A Division of General Networks

## Take your organization's PowerApps production to the next level

*Creating Collaborative Solutions in SharePoint and Office 365*

Compass365, the SharePoint/O365 division of General Networks, provides PowerApps design, development, training, and migration planning consulting services. As a leader in Microsoft forms and workflow technologies, we've delivered enterprise grade PowerApps that serve hundreds of users on a daily basis.

Our services range from deep dive training to full PowerApps project scoping and delivery, through integrating your PowerApp with line of business solutions. Let our team of experienced consultants guide you through the process or own the delivery of your next complex PowerApp.

Gold  
Microsoft Partner

### Utilizing PowerApps, Flow, CDS, and our proven methodology, our experienced consultants will help you:

- Replace a manual process or legacy application
- Automate a complex Excel based process
- Migrate from InfoPath or other forms solution
- Extend SharePoint with PowerApps

## PowerApps Offerings

To meet your organization's unique needs, Compass365 offers several PowerApps packages as well as customized PowerApps consulting services.

To get started with one of our PowerApp offerings or to discuss a customized PowerApps consulting service, contact Cathy Ashbaugh, [cashbaugh@compass365.com](mailto:cashbaugh@compass365.com).

1-HOUR  
ASSESSMENT

### PowerApps: 1-Hour Assessment | FREE

- Introduction of Compass365' Biz Apps Development expertise
- Introduction of PowerApps and it's capabilities
- Analyze your selected business process and map to PowerApps/Flow/PowerBI
- Discuss your current Microsoft licensing

#### Deliverables:

- PowerApps solution proposal for your selected business process with an estimate
- License review and recommendations

## InfoPath to PowerApps: 1-Hour Assessment | FREE

- Introduction of Compass365 Biz Apps Development expertise
- Introduction of PowerApps and its capabilities
- Review your current InfoPath solution
- Discuss additional functionality you wish to add
- Discuss your current Microsoft licensing

### Deliverables:

- PowerApps solution proposal to replace InfoPath form with an estimate
- License review and recommendations

## PowerApps Hands-On 2-Day Workshop | \$7,400

This hands-on training will jump start your team's proficiency in PowerApps, Flow and CDS. Workshops are held onsite at your location with up to 10 attendees. Utilizing two of our PowerApps consultants, we begin the workshop with an in-depth overview of each component of the platform, benefits and roadmap. This is followed by a hands-on lab that tests your skills at building on these platforms.

- **Day 1:** PowerApps and Flow for Advanced Users – introduction and lab
- **Day 2:** Common Data Service (CDS) – introduction and lab; business process review

## PowerApps & Your Business: 3-Day Proof of Concept (POC) \$4,800

In this 3-day Proof of Concept, we will review a business process of your choice and build a basic PowerApp as a working solution to demonstrate the value of implementing more efficient solutions using PowerApps. The POC PowerApp will serve as the foundation to develop a more complete and production ready PowerApp in the future.

- Analyze your selected business process
- Design the PowerApps and Flow solution that will be created
- Work directly with your business and IT staff to develop a working PowerApp
- Present Proof of Concept to your executive team

### Deliverables:

- Basic functioning PowerApp integrated with SharePoint and/or Flow
- Report outlining the opportunity to automate using PowerApps and Flow
- A deeper understanding of the value of utilizing PowerApps in your business
