

Hello %%First-Name%%,

Hope you are seeing nature's signs of growth and renewal wherever you are. Spring signals renewal, and by definition, opening up to new ways of thinking and feeling. It's also a great time to take a fresh look at the Microsoft SharePoint, Teams and Power Platform tools and solutions you've rolled out over the years. By reviewing how well these tools and solutions are working, you have an opportunity to continuously improve both the solution and the adoption of the solution for your users.

If you're seeking a partner to help you assess and optimize the solutions you have in place or to plan, implement and accelerate your Microsoft User Adoption Program, Compass365 can help. Give us a call to discuss!

Tip of the Month: Adoption Resources

There are fantastic resources available in the Microsoft Adoption Portal. Nicely organized by roles, products and solutions, you'll find training resources, guides, adoption playbooks, case studies and more. You don't have to reinvent the wheel.
