

Hi %%First-Name%%,

Last month we were honored to be a recipient of the 2023 Helen Keller Services' AccessAbility Award for our work helping to make their new SharePoint intranet 'Helen's Hub', accessible to their Blind and DeafBlind employees. While SharePoint provides an accessible experience out of the box, Helen's Hub required us to go deeper and improve upon the standard features to create a truly inclusive intranet.

You can watch our CEO, Todd Withers and solutions architect Todd Martindale, accept the award on the [Heller Keller Services YouTube channel](#). Partnering with organizations like Helen Keller Services to bring about positive change with technology is rewarding and inspiring.

Accessibility is a complex process and there is no one-size-fits-all solution. If your organization is struggling with accessibility or ADA compliance using Microsoft technologies, contact us to start a conversation about creating more equitable experiences.

Accessibility Resources

Enhancing SharePoint Intranet Accessibility

How we worked with Helen Keller Services to improve the accessibility of their SharePoint intranet.
