

## Microsoft Power Platform CONFERENCE

OCT 3-5 2023

MGM GRAND LAS VEGAS

110+ SPEAKERS   150+ SESSIONS   35+ EXHIBITORS   18+ WORKSHOPS

[POWERPLATFORMCONF.COM](https://powerplatformconf.com)

Hi %%First-Name%%,

Microsoft Power Platform has played a transformative role in streamlining processes, creating applications, and delivering data-driven insights. But what happens when you introduce the power of AI into this equation?

That seems to be a strong theme at the upcoming [Microsoft Power Platform Conference](#). With four out of five Keynotes and over 20 sessions centered on generative AI and Copilot, we are excited to explore how AI is shaping the future of Microsoft and the Power Platform.

We'll be sending a big team to the conference this year including Ingrid Camill - Solutions Architect & Director, Cathy Ashbaugh - Vice President, Client Success, Qais Gharib - Practice Manager, Business Applications, and our Business Applications team! We can't wait to bring all we learn back to our clients to help them improve processes and drive productivity with all the Power Platform has to offer.

If you are planning on attending, we would love to connect with you. Please reach out directly to me at [cashbaugh@compass365.com](mailto:cashbaugh@compass365.com) to schedule a meeting.

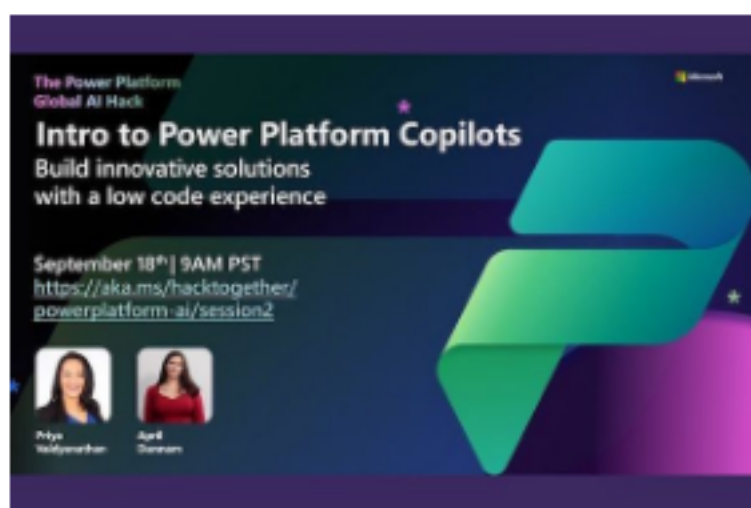

## Resources

### AI and Productivity – An Introduction

In this introductory post of our AI and Productivity blog series, we'll focus on some terms you are likely to see popping up and their impact on productivity and adoption of Microsoft technology.
