Hi %%First-Name%%,

In January, Microsoft announced the Power Platform 2025 Release Wave 1, focusing on AI-driven automation, intelligence, and integrations to enhance business operations. The release, spanning April to September 2025, is scheduled with early access in February 2025 and general deployment starting in April 2025.

Key Updates Across Power Platform

Power Apps:

- AI-driven Plan Designer
- Copilot-powered data visualizations
- Enhanced app testing
- Source code management for canvas apps

Power Pages:

- Improved Copilot for page creation
- Modern list components
- Expanded file upload options
- Streamlined identity setup

Power Automate:

- AI-assisted expression creation
- Multi-flow automation maps
- Copilot troubleshooting for cloud flows

With this release, Microsoft continues to push boundaries and drive innovation in AI, low-code development, and business automation. By integrating smarter AI tools and enhancing the maker experience, Microsoft empowers organizations to streamline workflows, enhance productivity, and unlock new possibilities.

To learn more about these updates read our Release Wave 1 Highlights blog post below. If you have questions about these updates or how you can transform the way your organization works with Power Platform, contact us to start the conversation.

Sarah Taylor
Systems Developer | Business Applications

As a Systems Developer on our Business Applications team, Sarah works with our clients to design, develop, and maintain user-friendly and scalable solutions using Microsoft Power Platform.

Areas of Expertise:
Canvas apps, Power Automate, SharePoint

"At Compass365, I love having the opportunity to be able to work through problems and come up with solutions with other experts on my team. It allows me to constantly learn new things, get advice when I need it, and offer help when I can. I also enjoy being able to work with different industries and coming up with the best approach for that client and their specific needs, working together to create the most user-friendly and cost-effective solution."

- Sarah Taylor

As always, the Compass365 team is here to assist you in improving the way your organization operates and your employees work with SharePoint and the Microsoft 365 platform. If you have

a vision for driving improvements and would like to discuss your ideas with our team of Microsoft consultants, please reach out at any time.
